

Pre-announcement:

1st International Zhineng Qigong Teachers Symposium

September 25 - 27, 2020

Dear Zhineng Qigong teachers from all over the world,

three years ago when we founded the German non-profit Zhineng Qigong Association which is the first association of its kind worldwide, it was our sole purpose to support Zhineng Qigong and spread the knowledge about this unique self- healing and transformation method in the Germany speaking countries (Germany, Austria and Switzerland) and at the same time to create a platform for ZNQG teachers to benefit ZNQG teachers and students alike.

In the meantime, our association has grown into a thriving community and we have made friends and enhanced cooperation among Qigong friends in our countries but also all over the world. After our first German- Chinese teachers Symposium in 2017 with around 60 participants, we hosted another wonderful „Big Qifield Meeting“ for ZNQG practitioners with around 200 participants in 2018. Encouraged by this successful meeting, we are now planning another gathering in 2020.

This time we will focus on the worldwide community of people teaching ZNQG around the globe.

Therefore we will organize and host the **1st International Zhineng Qigong Teachers Symposium** in North Hessen, Germany from September 25 to September 27, 2020.

More than 10 Chinese ZNQG teachers have already promised to attend this meeting:

- Director Wang Jinghong, teacher Yuan Ming and teacher Zhu Wanfeng from the Xi'an Zhineng Science Research Centre
- Teacher Wei Qifeng, teacher Xi Xiaofeng, teacher Tao Qingyu, teacher Zhao Liancheng, teacher Dong Xinhian, teacher Wu Shichao and and teacher Gao Yuan from daohearts. com
- Teacher Liu Jianshe from Hexianju Zhineng Qigong Centre in Wenchang, Hainan
- Teacher Ning Jianxiong

It will be a great opportunity to come together, exchange information and knowledge and enhance the understanding of the theory and practice of ZNQG. We intend this meeting also to offer special training for anyone teaching ZNQG or willing to do so in the future. A major point of focus will be the application of Zhineng Qigong in our lives as well as the development of consciousness. Through a great variety of excellent workshops, presentations and teachings participants will get the chance to experience the individual teaching methods and priorities of the Chinese teachers. Quite naturally, in the course of the Symposium we will stay and practice in a strong, clear Qifield of joined hearts and minds.

Additionally, there will be seminars with Chinese teachers before and after the teachers symposium, some of which are already listed on our website.

Thus, we will realize the dream we share with the founder of ZNQG, Dr. Pang Ming. It is the dream of people coming together from different directions of the world with open minds and hearts to share their good information, learn from each other and develop new ideas. Knowing that peace and harmony start from within, we want to help planting the seeds of a harmonious word family on the way to a new human culture of liberated hearts and minds into the Qifield. Our meeting will shine a light on various areas and questions of cooperation in the field of ZNQG, develop our understanding and strengthen our mutual bonds as well as vitalize our worldwide Qifield.

If you are a ZNQG teacher, a trainee or intend to teach ZNQG in the future, you are warmly invited to participate in our international meeting. We will pre-book different kinds of accommodation.

Registration for the Teachers Symposium will start in spring next year. Likewise, we will publish any further information on the symposium on our website. As at the time being we are still planning and organizing, we will inform you as soon as we have finished.

We are looking forward to each and everyone of you and to a wonderful meeting in a worldwide, big Qifield which will concentrate in North Hesse, Germany for three days!

Warm Qi greetings

The representatives of the German Zhineng Qigong Association

Oct. 2019
